Framer- Webflow

Interaction designer experienced in research and visual design, crafting AI-driven solutions for mobile and web across consumer and enterprise products. I bridge business goals and user needs through informed, collaborative design.

Founding Product Designer at Ops0
Remote - Virginia USA
`Jan 2025 → Present`

AI-driven autonomous enterprise tool for simplifying infrastructure management for DevOps teams and Developers

- Led end-to-end design and delivery of 3+ MVPs and POCs, **aligning engineering on business and product priorities** and managing technical constraints, resulting in **6 design partnerships.**
- **Redesigned the entire product suite in 10 days**, running **3 usability tests** and a **heuristic evaluation** across core user journeys, improving navigation, information comprehension, and accessibility **reducing average Time on Task by 60%.**
- Built a lean, scalable design system with front-end engineer, cutting **design handoff time by ~40%, dev time by ~30%**, and **enabling AI-driven rapid prototyping** for faster delivery and consistent experiences.

UX Designer at Eikasia Labs
Remote
`May 2024 → Jan 2025`

Stoqs: AI-powered financial tool delivering real-time market insights via Generative UX.

- **Designed end to end core user journeys for the MVP**, collaborating closely with the founding team across mobile and web, focusing on interaction design, driving **400+ organic monthly active users.**
- **Redesigned mobile UX using data and user feedback**, focusing on enhancing conversational interactions and personalization to improve adoption and **shape the native app experience.**
- Owned **visual and motion design** across product and go-to-market initiatives, ensuring a cohesive brand and experience.

UX Design Intern at TGH Tech
Remote - Ernakulam, Kerala
`Oct 2022 → Jan 2023`

Product studio partnering with startups, MNCs, and enterprises to design, build, and scale products.

- **Designed and delivered end-to-end user journeys across mobile and web**, simplifying startup funding evaluation and improving communication between founders and investors.
- Redesigned a global MNC's website, **improving information architecture** and revamping **visual narrative and storytelling** to boost **user comprehension and conversions.**

Design Partner at Oronium
Hybrid - Trivandrum, Kerala
`Aug 2022 → May 2024`

Product studio creating innovative solutions for niche e-commerce and SMB challenges

- **Prototyped an end-to-end e-commerce solution for SMBs**, enabling affordable online business adoption; **tested with 3 users** to validate hypotheses and drive **insights-informed product development.**

Education
College of Engineering Trivandrum
`Oct 2020 → May 2024`

B.Tech in Computer Science & Engineering

Led design and branding for organizations and events, boosting engagement, sponsorships, participation, and merchandise sales.
